biblically the heart is the source of a person s behaviors beliefs thoughts attitudes desires motives and values the heart is so important to who we are our inner nature that is given a new body for our eternity in jesus god made the heart naturally stable by making it greatly fear getting changed this is good but also causes the heart to be very self deceptive if it needs to be cleaned how can we proceed this book shows the biblical picture of the heart more fully so that we can see ways for believers in jesus to work with him to clean our deceiving hearts for our eternity and for our close life giving fellowship with god on earth i gave two related books the same cover so that readers can choose the best fit purifying the heart puts solutions of heart problems with their discussion this complicates the picture of the heart destroying spiritual strongholds more fully explains this picture from the bible which is a harder introduction to this picture

the bible uses the heart to represent the whole inner person the part of a person that receives a new body as he she moves from life on earth into the rest of eternity because the heart is the key to each person s eternal good our loving god makes purifying our hearts a priority he gives true progress but he also wants each of his children in jesus to co operate with his work for our good this allows major problems a heart often has unhealed wounds wrong beliefs and distracting treasures the heart naturally protects itself against getting changed even by deceiving one s own mind if necessary and the devil and demons try diligently to deceive people out of receiving god s great good in jesus this book is written to show biblical solutions for these kinds of heart problems

computational geomechanics the new edition of the first book to cover the computational dynamic aspects of geomechanics now including more practical applications and up to date coverage of current research in the field advances in computational geomechanics have dramatically improved understanding of the behavior of soils and the ability of engineers to design increasingly sophisticated constructions in the ground when professor olek zienkiewicz began the application of numerical approaches to solid dynamics at swansea university it became evident that realistic prediction of the behavior of soil masses could only be achieved if the total stress approaches were abandoned computational geomechanics introduces the theory and application of zienkiewicz s computational approaches that remain the basis for work in the area of saturated and unsaturated soil to this day written by past students and colleagues of professor zienkiewicz this extended second edition provides formulations for a broader range of problems including failure load under static loading saturated and unsaturated consolidation hydraulic fracturing and liquefaction of soil under earthquake loading the internationally recognized team of authors incorporates current computer technologies and new developments in the field particularly in the area of partial saturation as they guide readers on how to properly apply the formulation in their work this one of a kind volume explains the biot zienkiewicz formulation for saturated and unsaturated soil covers multiple applications to static and dynamic problems for saturated and unsaturated soil in areas such as earthquake engineering and fracturing of soils and rocks features a completely new chapter on fast catastrophic landslides using depth integrated equations and smoothed particle hydrodynamics with applications presents the theory of porous media in the saturated and unsaturated states to establish the foundation of the problem of soil mechanics provides a quantitative description of soil behavior including simple plasticity models generalized plasticity and critical state soil mechanics includes numerous questions problems hands on experiments applications to other situations and example code for gehomadrid computational geomechanics theory and applications second edition is an ideal textbook for specialist and general geotechnical postgraduate courses and a must have reference for researchers in geomechanics and geotechnical engineering for software developers and users of geotechnical finite element software and for geotechnical analysts and engineers making use of the numerical results obtained from the biot zienkiewicz formulation

this book focuses on mega droughts of the past 20 years twelve cases from both developed and developing countries are elaborated in the book its intention is to draw lessons from the cases of extremely severe water shortages so that countries and stakeholders can be better prepared for extreme drought events in the future several recurrent themes emerge from the diverse case studies and descriptions of programs for example most chapters discuss the necessity to move from

reactive compensatory to preventive policies this theme has implications for use of insurance in developing countries e g is insurance encouraging investments to help countries avoid disasters or is it acting mostly in a humanitarian way to compensate for losses to help people several authors point to the importance of risk assessment and to developing risk based policies for drought this raises statistical issues of how such assessments of uncertainty and risks are done and how they relate to actual occurrence of events most chapters call for more inter sectoral policies policies which integrate water resources management approaches and to the necessity of raising public awareness of droughts in times of no drought the issue of structural versus nonstructural is clear in most cases while often cast as either or the message that emerges is more one of how do you integrate these approaches finally a few chapters bring to light how prevention is needed for national security as well as water security in focus a book series that showcases the latest accomplishments in water research each book focuses on a specialist area with papers from top experts in the field it aims to be a vehicle for in depth understanding and inspire further conversations in the sector

the oxford textbook of palliative nursing is the definitive text on nursing care of the seriously ill and dying it is a comprehensive work addressing all aspects of palliative care including physical psychological social and spiritual needs the text is written by leaders in the field and includes an impressive section on international palliative care each chapter includes case examples and a strong evidence base to support the highest quality of care the book is rich with tables and figures offering practical resources for clinical practice across all settings of care and encompassing all ages from pediatrics to geriatrics

volume i a an outbreak of a respiratory disease first reported in wuhan china in december 2019 and the causative agent was discovered in january 2020 to be a novel betacoronavirus of the same subgenus as sars cov and named severe acute respiratory syndrome coronavirus 2 sars cov 2 coronavirus disease 2019 covid 19 has rapidly disseminated worldwide with clinical manifestations ranging from mild respiratory symptoms to severe pneumonia and a fatality rate estimated around 2 person to person transmission is occurring both in the community and healthcare settings the world health organization who has recently declared the covid 19 epidemic a public health emergency of international concern the ongoing outbreak presents many clinical and public health management challenges due to limited understanding of viral pathogenesis risk factors for infection natural history of disease including clinical presentation and outcomes prognostic factors for severe illness period of infectivity modes and extent of virus inter human transmission as well as effective preventive measures and public health response and containment interventions there are no antiviral treatment nor vaccine available but fast track research and development efforts including clinical therapeutic trials are ongoing across the world managing this serious epidemic requires the appropriate deployment of limited human resources across all cadres of health care and public health staff including clinical laboratory managerial and epidemiological data analysis and risk assessment experts it presents challenges around public communication and messaging around risk with the potential for misinformation and disinformation therefore integrated operational research and intervention learning from experiences across different fields and settings should contribute towards better understanding and managing covid 19 this research topic aims to highlight interdisciplinary research approaches deployed during the covid 19 epidemic addressing knowledge gaps and generating evidence for its improved management and control it will incorporate critical theoretically informed and empirically grounded original research contributions using diverse

approaches experimental observational and intervention studies conceptual framing expert opinions and reviews from across the world the research topic proposes a multi dimensional approach to improving the management of covid 19 with scientific contributions from all areas of virology immunology clinical microbiology epidemiology therapeutics communications as well as infection prevention and public health risk assessment and management studies

what can i say to parents who have lost an infant where do i find the time to be a good pastor and a loving husband and father too these are just some of the tough questions most pastors ask at one time or another and the answers don t come easy robert anderson s practical guide to the pastoral ministry highlights the many aspects of a pastor s job his qualifications prerequisites and requirements his relationships with his wife and family his congregation those outside the congregation and in counseling and visitation his tasks including worship services the lord s supper and baptism evangelism weddings funerals and special events his administrative tasks such as public relations correspondence christian education youth and music ministries and encouraging fellowship here is a volume of excellent ideas advice and general rules for the contemporary pastor in his ever changing ministry

when are you going to do something about pastoring our people when he heard that cry dr melvin steinbron realized that the centuries long traditional roles of the clergy and laity with the clergy doing the pastoring and the laity receiving it is woefully inadequate to care for all the needs of people in our churches today so he decided to do something about it believing that lay people also have ministry gifts he along with a team of church members initiated a program to enable the laity to share in pastoring the congregation you too can form a lay pastoring ministry which will benefit both pastor and congregation this book will show you how to reach out on a continuing basis to every member of your church how god gives pastoring gifts to lay people how to prepare your congregation for a lay pastoring ministry how to get organized how to choose lay pastors how to conduct a 15 hour equipping seminar seven commitments lay pastors must make seven common ministry problems and how they can strengthen rather than weaken your program how to evaluate your program this is much more than a how to book it s a how it s being done and you can do it too book the lengthy track record of scores of lay people doing effective pastoring assures you that lay people can indeed do the pastoring

a great deal of confusion exists today as to what pastors are to be lawrence writes are they chaplains ceo s preachers managers or counselors paul gave us the answer long ago they are to be equippers disciple makers just as the great artist michelangelo took a chipped and flawed piece of marble and transformed it into a masterful sculpture of david so does a pastor with his flock this is pastoring writes lawrence serving as sculptors of souls

using an innovative sports analogy kaiser provides proven biblical principles of leadership to help board members pastors lay leaders denominational executives consultants and dedicated church members succeed in their respective missions church life
